

SPACE RESPIRATION

Pervaded space is now approaching the mid-point of the expanding phase while unpervaded space nears the mid-point of the contracting phase. For a billion years the space reservoirs contract while the Master Universe and the force activities of all horizontal space expand. It thus requires a little over 2 billion years to complete the entire expansion-contraction cycle. p.124/2

MIDSPACE ZONE: quiet zone that separates space levels. Only this quiescent midspace zone comes into contact with Paradise. These zones grow larger & larger at greater distances from Paradise and eventually encompass the borders of all space completely encapsulating the pervaded space areas. p.124/4

UNPERVADED SPACE

This means unpervaded by forces, energies, powers & presences known to exist in pervaded space. It seems to exist to counter-balance the space-expansion-contraction cycles of the universe of universes. p.123/6

PERVADED SPACE

Pervaded space extends horizontally out through the 4th space level and beyond the periphery of the Master Universe

PERVADED SPACE

Pervaded space contains all the matter, universes, worlds, forces, energies, powers & presences.

UPPER PARADISE

Made of material called 'absolutum'. Ellipsoid & flat. The Deity Presence is in the centre surrounded by the Most Holy Sphere for the functions of worship, trinitization and high spiritual attainment...no material structures. Outside this is the Holy Area—seven concentric zones of residential areas. Paradise is surrounded by midspace which is the transition from time to eternity. There is no time or space on Paradise. Space originates just below Nether Paradise. Time originates just above Upper Paradise. p.120/4

PERIPHERAL PARADISE

There is a confluence of pervaded and unpervaded space just underneath Nether Paradise. Here both types of space flow through transmuting regulation channels making pervadable space nonpervadable and vice versa in the space-expansion-contraction cycles of the cosmos. p.123/4

UNPERVADED SPACE

PERIPHERAL PARADISE: The 7 Master Spirits have their force-focal headquarters here. All landing and dispatching fields. 7 trillion reminiscent historical exhibit areas take up 4% of the space.

NETHER PARADISE: All physical-energy and cosmic-force circuits have their origin here. There is an inner Zone of Infinity which acts like a gigantic heart pulsating direct currents to the outer limits of space. This is surrounded by a mid zone which expands & contracts in 3 cycles. The outer zone is the largest belt and its gigantic pulsations are synchronised with the 2 billion year expansion-contraction cycles of space. It is an impersonal area dominated by the Unqualified Absolute. p.122.

MIDSPACE ZONE

MIDSPACE ZONE

The complete contraction of pervaded space and complete expansion of the nonpervaded space reservoirs.

The complete contraction of unpervaded space and complete expansion of pervaded space containing the Master Universe.
